RE: St. Joe Dam & Pump Station
Contract 77-W-3
Our 6273 XI, C.R.#5
C.O.#3

Gentlemen:

We have received change order No. 3 and note that there are two discrepancies as regards our C.R.#5, dated August 22, 1980. One difference is the addition of Thoroseal Paint, top portion of rail only, of existing concrete. We agree that this is acceptable.

We also required a time extension to the contract of 51 calendar days providing we receive order to proceed by October 8, 1980. This requirement must remain a part of this change order, and we have signed the change order with this condition. We acknowledge that the work will be done concurrent with our pending 6273X C.R.#6 time extension.

Please keep in mind that this change order will have to be requested if cold weather protection is required.

Very truly yours,

SHAMBAUGH & SON, INC.

James Harvey
Manager, Water & Waste Division
